The QwikCheck™ Gold sperm analyzer is an affordable medical device that performs a complete quantitative evaluation of semen quality in less than 2 minutes. This high performance system incorporates technology in electro-optics and computer algorithms to provide a quick, precise and accurate automated semen analysis.

**Features**
- Runs fresh, frozen and washed human semen samples
- Disposable testing capillary
- Easy to use – menu driven testing
- CE certified
- Self-testing, self-calibrating
- Runs latex beads or stabilized sperm for QC

**Automated Test Results**
- Sperm Concentration
- % Motility
- % Normal Morphology
- Motile and Functional Sperm Concentration
- Progressively Motile Sperm Concentration
- Velocity
- Sperm Motility Index

### Dynamic Range of the QwikCheck™ Gold
